(2) allowable per patient day costs for the therapy, indirect care, administrative, and capital components;
shall be established once per year for each provider based on the annual financial report.

the change in licensed beds. This additional rate review shall be determined using all rate-setting parameters in effect at the provider's latest annual rate review, except that the number of beds and associated bed days available for the calculation of the rate-setting limitations shall be based on the newly licensed beds.

- (9) The additional reimbursement authorized by section 7(i) of this rule shall be excluded for purposes of calculating the maximum allowable increase pursuant to subdivisions (1) through (4) of this section when the nursing facility's prior annual Medicaid rate does not include this additional reimbursement.**
